

F112A,C; F113A,C Portable Air Cleaners

SPECIFICATION DATA

FEATURES

- Models available with 99.97% High-Efficiency Particulate Air (HEPA) filter or a combination of HEPA and Carbon, Potassium Permanganate and Zeolite (CPZ™) canister. Both models have a carbon prefilter. The filters in both models are more efficient on particles larger and smaller than 0.3 micron.
- F112A,C; F113A,C circulate up to 150 or 300 cfm, respectively.
- Patented 360 degree air intake and discharge for effective air cleaning power.
- Carbon prefilter helps reduce odors and extend HEPA filter and CPZ canister life.

APPLICATION

The F112A,C; F113A,C Portable Air Cleaners are designed for use in commercial applications to remove airborne particles and odors. Typical applications include restaurants, bars, schools, offices, day care centers, smoking lounges, and any indoor space where people meet, work or play.
